LIVE STOCK EXHIBITION IN CITY

Government Will Not Aid Toronto to Erect the Buildings.

HAMILTON OFFER

Being Considered by the Executive of the Association.

A project of the greatest moment was considered at a luncheon in the Connaught Hotel today, being the proposed live stock exhibition for Hamilton. Ever since it was decided to remove the exhibition from Toronto on account of the limited space available there, as well as the inadequate railway and hotel accommodations, the Hamilton offer has been under consideration by the executive of the National Live Stock Association.

Toronto has worked hard to secure the holding of the event and interested Hamilton stockmen have also made a strong bid for it at the Connaught. In the interests of the public, it was informed this morning from Ottawa that the Government has refused to grant financial assistance to Toronto for the erection of a live stock arena and the building which it was the proposal of Toronto, in making a bid for the exhibition, that an arena to cost \$1,000,000 would be erected and to that end the Government was asked to aid to the extent of \$500,000.

The refusal of the grant by the Government does not mean that no assistance will be given by the Live Stock Association, as a willingness to express the opinion of the Government to aid the "poor" through the association. It merely means that the member of the live stock association, who is in the Government, is not prepared by the Government.

The chairman of the committee that Hamilton has no good a chance to land the big show at Toronto, and that city is not in a position to place such inducements before the members of the live stock executive that will determine the location of the exhibition. There have been proposals from the original promoter of the live stock exhibition, from the National Live Stock Association, and from the Hamilton stockmen, but the executive committee has not yet decided.

TEA GOSSIP

Walter, an estate, owned by L. F. Stephens, Bank of Hamilton building, was standing in the rear of the Main Street, a couple of nights ago, thieves stole a motor-car.

New Fiction. Exceptionally fine new fiction just received, including "Arrow of Gold," by Joseph Conrad, "Breach of Promise," by H. G. Wells, "The Secret of the Tower," by Anthony Hope, and many others.

Early this afternoon a Ford car, No. 4875, was found on the highway near the high level bridge, and was in one of the cars, the police have taken charge, assuming it to have been stolen. It will be held until claimed by the proper owner.

The dusky bloods of this city had been aware, if the local authorities accept an application which they have received from a "cultured" man in Brown, who has submitted to life in the city as a detective. He has made application to the chief of police for a spotting job, and judging from his letter he is fully qualified as a detective.

The police at Central station had a small visitor this morning, a child of about eight years of age, who was found on James street south of its last lungs. After a couple of days' wandering, the child was found by its parents having left it out on the street, while they did some shopping.

LABOR WILL SUPPORT ANY LEADER THE FARMERS' NAME

Will Back U.F.O. in House if Old Parties Try
a Catch Vote on 8-Hour Day

Big Conference To-day Will Name Leader---
Hon. Crerar Still is Wanted

Toronto, Oct. 29.—Two outstanding declarations to Labor's representatives were made yesterday before their prospective allies, the United Farmers of Ontario, headquarters both were made by M. M. McLeod, of Stratford, in the joint committee session.

The first was that the independent Labor party does not care whom the U.F.O. select for leader to-day. Labor members will give him their support.

The second, made in response to a question put by Farmer members-elect was that should the Liberal or Conservative Opposition privilege a catch vote in the Legislature on an eight-hour day, these Labor would stand with the Farmer members.

HEAR VERBISIT TO-DAY

No official statement was issued at the conclusion of the committee sessions at 11 o'clock last night. Secretary J. J. Morrison simply informed the press that to-day the U.F.O. Committee of nine would make their recommendation for the leadership to the general meeting of the U.F.O. and Farmer members-elect and defeated candidates.

He stated that "probably" the Leader would be definitely decided upon at this afternoon's meeting, and that there would be a definite statement forthcoming to-night. The whole question of party policy will also be thrown open for discussion.

To-day is the big day, and whether or not all the plans are definitely laid into the U.F.O. platform before midnight, it should be a red letter day in the history of Ontario politics.

Platform and policy was really to be the chief topic of discussion for the joint meeting of the U.F.O. Committee of nine and Farmers two representatives. Walter Rolin and Major McLeod, who had been on the platform, wandered early to the possibility and probability involved in Labor and U.F.O. working together at Queens Park. Farmer members, wanted to know what the working heads would be and how would Labor then certain politics to act, the Farmers were committed to the U.F.O. platform in the midst of this discussion the Hon. Mr. McLeod of Stratford made two important statements.

GO AHEAD WITH CABINET.

In the opinion of one attendant at yesterday's conference, U. F. O. and Labor after the have settled the question of leadership and have some definite announced policy will go right ahead on Thursday of this week and prepare an appropriate draft of the new Cabinet. This is only my conjecture of what will be the next step, he said, but they realize that they have to be prepared for a call from the Lieutenant Governor to enlighten him on intended procedure.

The Committee of Nine has settled on its recommendation for the new leader, and members admitted that

SAYS HEARST FILLING JOBS AFTER DEFEAT

Ontario Liberal Leader
Complains Regarding
Late Appointments.

CLOSEST SCRUTINY

Will Be Maintained by Reform Party On Such Business.

Toronto, Oct. 29.—Mr. H. Hartley Dewar, K.C., the Liberal Leader, in a statement issued last night, declared post-mortem appointments being made by the Lieutenant-Governor on the nomination of the Hearst Government. He criticizes the appointments of Mr. Edward Bayly, K.C., to be Deputy Attorney-General, and of Mr. A. Middleton, to be solicitor to the Attorney-General, also the appointment of Mr. H. H. McElroy, former Conservative member for Carleton, to be Registrar of the county.

Mr. Dewar, in his statement, says: "It was announced in yesterday's press that Mr. Edward Bayly had been appointed Deputy Attorney-General, and Mr. Augustus Middleton, solicitor to his Attorney-General, and that the appointments had been made some time ago."

"It is a curious fact that neither The Ontario Gazette, of Saturday, October 25, preceding the election, nor The Ontario Gazette of Saturday, October 26, succeeding the election, contains any mention of these appointments amongst those that 'his Honor the Lieutenant-Governor has been pleased to make'."

MR. McELROY APPOINTED.—"To-day we are told that Mr. McElroy, the former member for Carleton, has been appointed Registrar for that county. Saturday's Ontario Gazette contains no reference to the fact. Are these appointments being dated back because of the existence of the 'Hearst Government?' There is a vacancy in the Registrarship in this county, and there are other vacant positions in the gift of the Crown. His Honor the Lieutenant-Governor will be well advised if he refuses to make any appointments upon the advice of the defeated and defeated Ministry of the Crown. The Minister

his name was being "whispered" around U. F. O. headquarters last night. It is not the whisper that did not come through the doorway of the locked door to the reporters waiting outside. Hon. T. A. Crerar, although many miles away from the U. F. O. councils in body, is still a predominant spirit at the King street offices. "Telegrams are constantly being exchanged by Secretary Morrison and the ex-Minister of Agriculture, and if he still said that the westerner could, he still said that the westerner could, if he wished, be Premier of Ontario."

SEN. DISMISSED AN ATTEMPT.—In events of the past few days active members of the Labor party are on an attempt on the part of the older parties to disrupt their movement. Openly they declared yesterday that they could not be too careful in selecting their members from the many who has expressed a willingness to join the party.

"One of the great dangers at the present time to the Labor party is the attempt of political heifers and ward politicians to gain admission for the purpose of disrupting the organization," said Mr. James Simpson. "A supreme effort may be made to defeat the Farmer-Labor coalition through the Labor party by party politicians who have their own interests and those of their parties at heart."

There was sufficient evidence during the recent election according to Mr. Simpson, of the willingness of members of the trade union movement to serve the interests of other parties. Mr. Simpson said that it was peculiar that some members of the Labor movement who had been on active in the past in deriding direct action and radical thought within Labor organizations should have kept away from the Labor party, a movement which was designed to overcome the use of force and direct action.

With the Farmer-Labor coalition Mr. Simpson believed that there would be fewer struggles upon the economic field.

"My point of view is this," said Mr. Simpson. "The coalition of Farmer and Labor groups, containing as it does the agricultural and industrial workers, will result in fewer strikes. Labor sincerely hopes that it will reduce the number of strikes by removing their causes."

Other acquaintances of the Labor party, scrutinize some of their friends very carefully. Mr. James T. Ogan said the party must be certain of the sincerity of its members before accepting them into its ranks. In so many could the party afford to become identified with either the Liberal or the Conservative party. The party sought individuals who would assist in the promotion of progressive legislation for the workers.

"Don't worry. We don't intend to make our party a resting place for ward politicians," said John Vick, who in Riverdale constituency learned some of the principles of certain trades unionists.

Others themselves will be well advised if they realize that appointments made since October 20 will not be recognized or countenanced by the Liberal party in Ontario. I feel sure that if United Farmers and Labor representatives will join in the Liberal protest against such a course.

"Sir Oliver Mowat fought this battle out after the general election in the Dominion in June of 1916. The Lieutenant-Governor's adviser, if he has no constitutional scruples, otherwise will be able to advise him as to what took place."

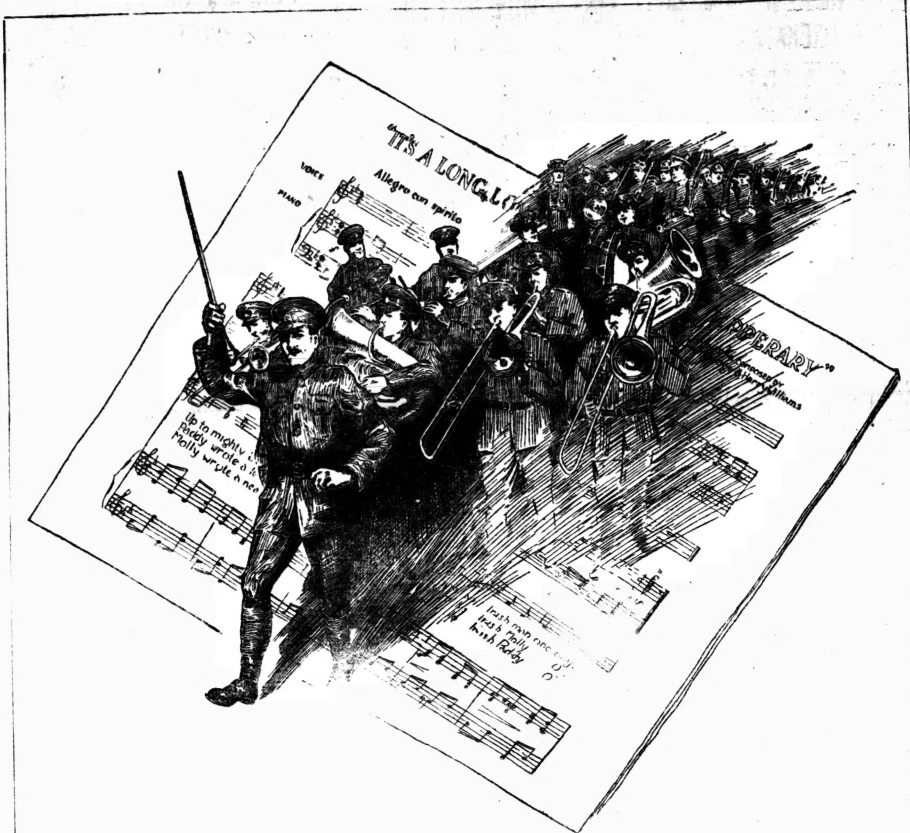

WATERS OF NECESSITY

"The action of the Lieutenant-Governor in sanctioning appointments of orders in Council must be the subject of the closest scrutiny. It is quite possible that the appointments in question were made in Council during the period that elapsed between their defeat at the polls and the time that the Lieutenant-Governor calls upon someone else to form a Government. These orders in Council can only be passed if they have the sanction of the Lieutenant-Governor. They should and must be confined to matters that are of absolute necessity, so far as the ordinary conduct of the public business of the Province is concerned."

"The great difficulty is that under our Provincial system publicity is not given to the orders in Council that are passed. The enormous Ontario Gazette gives the members of the public notice of the orders in Council that have to be paid for taxes, but makes no mention of the important ones in Council passed by the Government with the authority of the Lieutenant-Governor in Council. These may relate to interests involving hundreds of thousands of dollars and the most important public matters yet the public will know nothing with reference to them."

EXPROPRIATE LANDS.

"The Ottawa Citizen of Monday the 27th inst. contains an advertisement dated at Toronto, 27th inst. under which the defendant Minister of Public Works and Highways, Honorable F. G. Macdougall, by virtue of his powers as a Minister, states that he has expropriated certain lands for use as a Provincial highway. Are we to have other notices of a like kind with reference to the location of the Provincial highway in Western Ontario, regarding which the Ontario Gazette, of Saturday, October 25, preceding the election, contains no mention of these appointments amongst those that 'his Honor the Lieutenant-Governor has been pleased to make'."

When They Went Away Singing "Tipperary"

In those brave days of '14 and '15, they were indeed the idols of the Nation. To their support Canada brought all that the weight of money could bring.

And when they came to the furnace of their testing, we acclaimed them proudly as of no common clay.

"Tipperary" is forgotten, swept like a butterfly caught in a tornado or a catch of song in the throat of death. But Ypres, St. Eloi, Vimy, Hill 70, Passchendaele, Cambrai and Mons have placed its singers among the Immortals.

In these brave days—that to some of us are still but of yesterday—Canada proclaimed herself in the fight to the last man and to the last dollar.

Well has man played his fighting part. It is our Dollar that must now redeem the pledge.

To make the Victory Loan a success is a National obligation.

If the fighting were still raging you wouldn't hesitate to invest.

Be thankful then that it is ended, and be glad that your part now is but to lend money to pay the Debts of Honour.

The spirit that moved you to buy Victory Bonds one year ago and two years ago should impel you to buy them again.

But even if you suppress that spirit—grant that you may not—the material advantage of the investment cannot fail to appeal to your good common sense.

Think of it. The peerless security of a mighty nation—a nation at peace—the great uncertainty of war past—and 5% interest. Where can you find its equal?

Whichever way you look at it, if you are true to yourself you must

Burnishing Silver.

A machine for burnishing silver, the invention of a Swiss citizen, is now extensively used in many large hotels, restaurants and club-rooms. It is so simple that even an inexperienced person can operate it successfully.

The silverware is placed in a cylinder immersed in a soap solution and containing a quantity of small steel balls and pins. The cylinder

is slowly rotated by a motor of 300 other suitable source of power. As the silverware is cleaned as thoroughly as if a scratch-brush had been used, but there is practically no abrasion. Ten per cent. of the silver is lost every year in using the scratch-brush and buffer—Popular Science Monthly.

It is difficult to understand men, but still harder to know them thoroughly.—Schiller.

vincial highway purposes in Ontario in face of the strong opposition of the Liberal party in the Legislature last session on the same line as this resolution must be carefully scrutinized.

"So far as the Liberal party is concerned, it will insist upon a rigid scrutiny of every order in Council that is passed, and every appointment that is made with the authority of the Lieutenant-Governor, when such appointments are made."

After the 20th October, 1919. It will not be wise for those who may be benefited by such orders in Council to build too elaborate structures upon such orders in Council as a temptation. This will also apply to the timber permits which Mr. Ferguson granted before the election.

The small balls and pins are of several sizes, and as they roll over the silver they remove every corner and every crevice of the most delicate ornamentation. The surface of the silverware is cleaned as thoroughly as if a scratch-brush had been used, but there is practically no abrasion. Ten per cent. of the silver is lost every year in using the scratch-brush and buffer—Popular Science Monthly.

DON'T NEGLECT YOUR BREAKFAST

The Fear of Indigestion Often
Prevents One from Taking a
Good Breakfast. But What You Like,
Take a Stuart's Dyspepsia
Tablet and You're
Safe.

Breakfast affects many of the most
savory dishes of all the things we
eat. And yet more people than other-
wise go without breakfast, save a
roll and cup of coffee for fear of in-
digestion. If you like a fried egg
or some buckwheat or sausage for
breakfast go to it and follow with
a Stuart's Dyspepsia Tablet. You'll
have no trouble. The average person
who neglects breakfast will be hun-
gry before noon. Most men
speak to kill the appetite, or much
eat and follow it with a good
egg. An empty stomach under these
conditions is not storing up energy,
but on the contrary, is susceptible to
many influences that may work hard-
ship for the next meal.

It is advisable to eat three good
meals a day and digest them. If the
stomach seems to be weak, to help
it or give it assistance is the ration-
al thing to do. Try a good Stuart's
Dyspepsia Tablet and you'll soon find
that regularity of meals follows a
natural tendency, not an acquired one.

stores throughout the United States

VICTORY BOND

Interest Should Be Re-
Invested.

On November 1st, about \$15,000,000
will, in interest, be distributed among
those who subscribed for Victory
Bonds during 1918. This is a lot of
money, being at least \$1,000,000 more
than was paid in interest on all pub-
lic loans at the outbreak of war. It
should be reinvested.

The master of chief concern is not
the size of this interest payment, but
how much of the \$15,000,000 will be
reinvested in Government securities.
A large portion of it will go to the
owners of small bonds, who may con-
sider the amount they receive so small
as not to be worth bothering about.

This is a mistaken idea. It is on
the savings of the great mass of Cana-
dians that the stability of Canada's
interest drawn from previous issues
of Victory Bonds should be re-invested
in the 1919 issue. This should be
done because Canada needs the money
to clear up her war bill, to provide
for her soldiers and their dependents
and to take care of the large capital
expenditures that are part of the work
of reconstruction.

Put your War Bond interest into
new Victory Bonds. The former
clears up our war bill.

GHASTLY TALE OF A REVOLT

Munich Trial Discloses De-
tails of Massacre
Of a Party of Innocent Club-
men.

London, Oct. 28.—A trial in Munich
has just disclosed details of what is
perhaps the most ghastly episode of
the German revolution, according to
a despatch to the Daily Telegraph.

On the evening of May 6, when the
last sparks of the Bolshevik resistance
were being stamped out in the
streets of Munich, it was reported to
the Company of the Alexander Regiment,
that an illegal meeting was in pro-
gress in a house in the district for
the purpose of organizing a revolt.

On the evening of May 6, when the
last sparks of the Bolshevik resistance
were being stamped out in the
streets of Munich, it was reported to
the Company of the Alexander Regiment,
that an illegal meeting was in pro-
gress in a house in the district for
the purpose of organizing a revolt.

All their protests were in vain. Von
Stutterheim gave orders that they
be delivered into the cellar of St. George's
prison, which had been set apart as
a temporary jail.

The sight of a party of civilians un-
der escort through the streets was
suddenly attracted much notice, and
round the natural assumption that the
prisoners were Spartacists and thus
parties in guilt for many acts of treach-
ery, which had stained red rule in the
Bavarian city.

A crowd composed mainly of soldiers
of other detachments closed in around
the little crowd and the prisoners be-
came the target of an ever-increasing
fire of ill-treatment and abuse.

STREET DOGS, LICKED, ROVED.
As they were led within the court-
yard, a large portion of the crowd
surged through the gates. Shots at
once began to pour upon the helpless
club members. The escort tried to
shield the captives from the assault
but their efforts were not suc-
cessful, for the soldiers were left
dead in the courtyard when the
bulk of the party got down into the
cellar.

Among the soldiers who joined the
mob was a young man, a young but-
cher who belonged to the Bavarian
volunteers, and a young butcher
named Mackowski. They were the
chief defendants at the trial.

It appeared that on the evening
of the assault Muller was to some extent
under the influence of drink, as his
company had received a liberal ration
of wine with the evening meal. Mar-

kowski placed himself at the entrance
to the cellar and struck right and left
at the faces of the prisoners. They
passed down the stairs. Then Muller,
Mackowski and eight or ten other
soldiers followed the prisoners down
into the cellar. Mackowski ordered
the club to be on the floor face down-
ward. The wretched men obeyed.
Hardly had they done so when the
soldiers began to empty their revolvers
into them. Those of the prisoners
who were not killed or injured im-
mediately by the first volley jumped to
their feet and screamed for mercy.
Their appeals fell on muffled and
deafened ears.

ONLY FIVE SURVIVED.

Muller in particular behaved with
demolition fury. He drew his sword-
bayonet and stabbed about blindly
with it at both living and dead. When
he had blunted its edge with this
ghastly work he snatched the bayonet
of one of his comrades and laid on
with that.

As soon as none of the victims could
remain longer on their feet, the sol-
diers pranced about on the prostrate
bodies, stamping on hands and faces
and plunging their bayonets into those
who still showed signs of life. Then
they executed a wild dance of triumph
over the bodies.

Five prisoners in all survived the
massacre. One was saved by soldiers
who accidentally recognized him as an
acquaintance. The other four were
either rendered unconscious by their
wounds or had presence of mind to
realize that their lives depended on
their remaining absolutely motionless.
Muller and Mackowski were found
guilty of manslaughter and were sen-
tenced each to fourteen years of penal
servitude. Needless to say, the lead-
ing Spartacists will exploit for their
party purposes the inadequacy of these
sentences as compared with the execution
of Spartacist leaders.

PLOTTED TO SEIZE WESTMINSTER

London, Oct. 28.—Belgian plans
for the seizure of Whitehall and
Westminster, which were laid early
in the present year, have just been
disclosed. A number of ex-
tremists, most of whom are still en-
gaged in Bolshevik propaganda here
and in the United States, met and
discussed the plans for the preten-
sion of seizing the British govern-
ment by force. The plot was to be
executed by a so-called
Saloon and Soldiers' Union.

The British government has been
sent to prison where he still is serv-
ing sentence for having a retro-
spective speech. The plot came
to naught because of lack of support
and the watchfulness of the British
authorities.

SIBERIAN PEASANTS DEFEAT
JAPS.

London, Oct. 28.—The Siberian peasants
have defeated the Japanese troops in
the Trans-Baikal and Amur regions. The third
Japanese division, according to a wireless
message from Moscow, has suffered very
heavy losses and been driven from the front
division.

St. Paul Woman After Six-
Thirty-Five Years' Trouble
Finds by Taking
Tanlac.

"I have taken only two bottles of
Tanlac but they have entirely stop-
ped my thirty-two years of suffer-
ing and almost made a new woman
out of me," said Mrs. Julius Horn-
house, of 435 Clinton avenue, St. Paul,
Minn., recently.

"For thirty-two years I suffered
from stomach trouble, indigestion, and
in digestion," she continued, "and at
times even the pressure of my clothes
against my stomach would hurt me.
I had to be very careful about what
ate and even then it was hard for
me to retain anything on my stomach
and sometimes I was so nauseated
I would have to give up and not eat
before I could get relief. I suffered
no end of misery from gas and
many and many a night I slept hardly
a wink because of the pains in my
stomach. For months at a time I
was off in weight as much as ten
pounds and I gained it back as fast
as I lost it. I felt weak and
draggish as ever, if not more so. I
spent hundreds of dollars and used
all kinds of medicines but got no re-
lief, and I was beginning to think I
would have to go on through life and
never get rid of my old troubles."

"But a good friend of mine
who knew that I had gone through hard
about Tanlac and suggested that I try
it, and today I feel thankful that I
tried and have never been thankful
to anyone but Tanlac. I can honestly say it is
the best medicine I have ever taken. My
stomach is in fine condition now and
no matter what I eat it digests and I
don't suffer any more after eating.
I am gaining in weight and strength
right along. In fact, I have gained four-
teen pounds already and weigh more
than I ever did in my life. I sleep
fine every night and I've gone back to
doing all my housework by the time
I don't feel a bit overtired after I
get through either. Since I've
taken Tanlac and it has been such a
wonderful I understand why so
many people are coming out and say-
ing it is the finest medicine they have
ever seen."

Tanlac is sold in Hamilton by Park
& Park and by an established agency
in every town.

THREE SONS VISIT EX-KAISER

Amsterdam, Holland, Oct. 28.—Three
sons of the former German Emperor ar-
rived last night from Germany to spend
a few days at Binnick Castle with his
father. August departed from Germany
today for Warrington for a several
days visit to his mother, the Empress,
who is residing there prior to returning
to Germany.

The three government is permitting
them to visit their father, according to the
British Foreign Office, in order to lighten
the burden of the German Empire.
The Kaiser is said to find separation
from his family his greatest trouble.

The Firestone Year

THE greatest things the Firestone
men have done have been ac-
complished this year. The new
Firestone Cord Tire is one of these
things. It jacks up tire making and
tire service more notches than any
other tire ever did. It is the first
of the new standard oversize established
by the industry. It casts a shadow
on any tire of relative size that it is
rolled up against.

This is just one of the high spots in
this year's work of the Firestone
men. Ninety per cent of them own
stock in the Company—thousands
of them own their own homes.
Firestone Park, the "fireside of
Akron," is the most sensible, attrac-
tive home community that any big
organization can point to.

A financial interest in the business
and a personal pride in the character
of the product, on the part of Firestone
men, are factors that have made this
the Firestone year.

One of a series of talks on the Firestone invention to acquaint
the people of Hamilton and vicinity with the organization—
its ideals, its product and the spirit that actuates it.

HAMILTON'S OBJECTIVE \$13,000,000

TOGETHER--WE WILL PUT IT OVER

TO EMPLOYEES:

Canada cannot win the fruits of Victory except by greater production, and ability to fill orders from Europe. This requires that Canada extend great credits to Britain and the Allies for foodstuffs, reconstruction material and the products of factory, mine and mill. Canada requires \$300,000,000 to carry on. It means that every citizen must back his country generously.

Canada offers you 5½% for the use of your money. She gives you a bond backed by every square mile of the Dominion's natural wealth.

Money in the Bank brings you only 3%; money in your pocket earns nothing. Put all you can scrape together into 1919 Victory Loan. If necessary, later on you can sell your bonds without loss or delay. Any bank or reputable brokerage house will do this for you and probably pay you considerably more than you invested in them. Dominion Bonds bought originally at \$100 in 1917 have sold as high as \$107½.

1919 Victory Loan will also sell at a premium.

TO EMPLOYERS:

You know how impossible it is to run a business without money. Canada, were it not for the wealth and loyalty of her citizens, would be in this position.

The war has left a tremendous debt of honor which Canada must pay—not next year or the year after—but now. This money is far beyond the immediate revenue of the country, so Canada is forced to borrow.

If Canada were unable to float her own loans, that is, if the Canadian people did not have the money to lend their government, what would be the effect on the business of the country?

You know—and every captain of industry knows. The whole progress and prosperity of Canada hinges on the expansion and enterprise and increased production of her industrial, agricultural, mineral, forest, fishery resources. They cannot go ahead if there is no money available.

Buy Victory Bonds—that Canada may pay the expenses of demobilization. Buy Victory Bonds that Canada may accept and finance the great orders from Europe for foodstuffs and reconstruction material.
